MRS. CHADWICK DEAD

Death Strikes Former Queen of Finance In Prison Cell.

HER REMARKABLE CAREER

It Is Alleged that She Secured Millions from Various Banks by Improper Methods—Amazing Financial Transactions.

Columbus, Ohio, Oct. 12.—Mrs. Cassie Chadwick, whose amazing financial transactions culminated in the wrecking of an Oberlin bank, died in the woman's ward at the Ohio penitentiary Thursday night. Mrs. Chadwick had been in a comatose condition for some hours previous to her death and the end came peacefully.

First a Fortune Teller.

Mrs. Cassie L. Chadwick, whose maiden name was Elizabeth Bigley, was a native of Woodstock, Canada. She first came into public notice in Toledo, O., about twenty years ago, where she told fortunes under the name of Madame Deviere. While in this city she forged the name of Richard Brown, Youngstown, O., and for this crime was sent to the penitentiary at Columbus for nine years.

She served but a portion of this sentence and then located in Cleveland, where she married a man named Hoover. Her second husband was Dr. Leroy S. Chadwick, of Cleveland, a man of good family and excellent standing in his profession.

In the latter part of 1902 or early in 1903, Mrs. Chadwick, in the presence of her husband, gave to Ira Reynolds, the cashier of the Wade Park Bank of Cleveland, a box containing notes signed with the name of Andrew Carnegie. These forged notes are alleged to have amounted to $7,500,000. Reynolds gave to Mrs. Chadwick a receipt for the papers, which described the notes and the signatures upon them. Mrs. Chadwick left with Reynolds as an explanation of the existence of the notes, the statement that she was a natural daughter of Andrew Carnegie.

She Got Millions.

With the receipt of Reynolds in her possession Mrs. Chadwick went to different banks, making loans, and paying not only high interest to the banks, but heavy uses to the bank officials who loaned her the cash. The extent of these transactions will never be fully known, but they ran up into the millions. They involved men of high standing in the financial world, and caused heavy losses to many banks.

In November, 1904, she was sued by a man named Newton, of Brookline, Mass., from whom she had borrowed a large amount, which she was unable to pay. Other creditors came down on her, and within a short time she was placed under arrest by the federal authorities on the charge of conspiring with Charles Beckwith, the president, and A. B. Spear, of a national bank, at Oberlin, O., which had been substantially looted.

The Smash Comes.

Mrs. Chadwick had obtained from this institution such large sums of money that it was compelled to close its doors, causing heavy losses to the depositors, and ruining many of them.

Mrs. Chadwick, Beckwith and Spear were indicted for a variety of offenses against the national banking laws. Beckwith died before coming to trial. Spear pleaded guilty, was sentenced to seven years in the penitentiary, and is now serving time at Columbus, O.

Mrs. Chadwick was brought to trial on March 6, 1905, and after a hearing, which lasted for two weeks, was found guilty of conspiracy to defraud a national bank and was sentenced to 10 years in the penitentiary.

Her health, which was not good at the time of the trial, failed steadily after its conclusion.

Charged with Murdering Girl.

Iola, Kans., Oct. 12.—Samuel F. Whitelow was formally placed under arrest here on a warrant sworn out by J. N. Sapp, of Moran, charging him with the murder of the latter's daughter, May Sapp, on the night of Sept. 27. Whitelow is charged with murder in the first degree. Whitelow reiterates his innocence. He maintains that the girl committed suicide because he had refused to elope with her.

GEORGIA STATE FAIR.

Opening Days of Big Show Were Record Breakers.

Atlanta, Oct. 12.—The second day of the Georgia State Fair continued its record-breaking figures for attendance that were begun on the opening day.

The big crowd of visitors present on Thursday exceeded the most sanguine hopes of the officials of the fair, and although a few of the county exhibits were not in place and one or two of the midway attractions had not been finished, the day passed off under the most auspicious circumstances.

Friday saw the fair completed in every department. The last county exhibits, had arrived, the few remaining midway shows came in Thursday night and the bright tops of the tents were showing over the park fence early Friday morning.

From now on the show will be open in every department. The big machinery exhibit, which is the largest ever held at any state fair, was formally opened Friday, although many visitors ran by the guards Taursday and visited the mammoth displays.

STRANGLED BOY WITH STRING.

Child's Body, with Arms Bound, Is Found in Lonely Spot.

Bridgeport, Conn., Oct. 12.—Three men, searching for chestnuts in an isolated section hereabouts discovered the dead body of Philip Mastronia, nine years old, who has been missing from his home, at No. 139 Willard street, since Sunday afternoon.

The body was nude and covered with bruises. The boy had been strangled with a shoe string and his arms were bound closely to his sides.

The body was covered by a woman's overskirt and a woman's wrapper of blue calico very much worn.

When last seen alive the boy was playing with some companions in the street near where he lived. He grabbed the rear of a passing carriage and was whirled off, and nothing heard heard of him until the body was discovered. No clew to the perpetrator of the deed has been obtained.

Laymens' Missionary Conference.

Chattanooga, Tenn., Oct. 12.—The Laymen's missionary conference will be held in this city in April next. This meeting will be attended by at least a thousand delegates, representing every Southern Methodist church in the south and west, from California to Ricamond, and will be the largest religious gathering ever held in the country. The program will be formulated hereafter, and there will be addresses at the meeting from prominent men from England, Canada, South America, Japan, China, Korea and different parts of the United States. St. Louis, New Orleans, Richmond, Memphis, Nashville and Asheville were in the race for the convention.

Making Ready for Squadron.

San Francisco, Oct. 12 The navy department is making ready on this coast for the reception of the Atlantic battleship squadron which will start soon for the Pacific. The naval collier Saturn will leave Mare Island Saturday with a cargo of coal and towing four barges. The Saturn's destination is the United States coaling station at Pichilinque. The Saturn will make a number of trips and by the time Admiral Evans' fleet reaches the Mexican coaling station the coal pile there will be a miniature mountain. The barges will be used in coaling battleships.

At 57 Goes to College.

Washington, Oct. 12.—Peter Murray, of Buena Vista, at the age of 57, has gone to college. He is a student at Jefferson academy, Canonsburg, and the teachers say he is one of their most diligent pupils. In his youth Murray had to work for a living and sacrifice his schooling. He has accumulated money till his large business interests, he says, demand that he be better educated.

"QUEEN OF THE SEAS"

Majestic New Cunarder Lusitania Beats all Records.

FASTEST AVERAGE SPEED

Giant Steamer Makes the Trip from Queenstown to New York in Four Days, Nineteen Hours and Fifty-Two Minutes.

New York, Oct. 12.—Four days, 19 hours, and 52 minutes out from Queenstown, with every trans-Atlantic speed record in her possession, the majestic Cunard liner Lusitania swept by Sandy Hook lightship at 1.17 a. m. Friday and after a pause at the bar to await daylight, steamed slowly up the harbor to receive the recognition of her right to the title of "Queen of the Sea."

Three records were written down in her log book, two of them wrested from the Great German rivals of the Cunard and one from the swift Lucania of her own line.

Her Average Speed.

They were the shortest time from any European port to New York, the fastest average speed for any trans-Atlantic voyage, 23.99 nautical miles

"The Queen of the Ocean" and a View on Her Promenade Deck.

Translated into land miles, her speed average for the run was 27.60 miles an hour. Her achievement is a triumph for British shipbuilding, and and the trip may mark the passing of the old-fashioned reciprocating engine and the beginning of the universal installation of the turbines which have made it possible for this ship to carry all records by the board.

The Lusitania in her daily runs exceeded on two days the record of 601 knots previously held by the Deutschland.

First Four-Day Boat.

The new Cunarder is the first "four-day boat" to enter the New York harbor, having completed the passage in less than five days, shortening the record held by the Lucania by more than eleven hours.

Had the Lusitania's arrival been timed so that she would reach New York in the daylight hours, her passengers might have been landed at the dock within five days after passing Daunts Rocks, off Queenstown. As it was, she was compelled to anchor off Sandy Hook bar and wait for a safer passage up the New Ambrose channel from the bar to the narrows.

Hoarse Whistles Greet Her.

She remained at anchor until 7:12 a. m., when she crossed the bar and moved slowly and carefully up the new and as yet, uncompleted, channel, and came to anchor off the quarantine station on Staten island. Her arrival was greeted with the hoarse salute of every steam craft then in that vicinity. For an hour the giant ship swung idly at her anchor while the port physician made his hasty examination to determine if any contageous diseases were hidden among her many hundreds of passengers This completed, she took up her run to the docks, moving slowly and majestically up the harbor amid the salutes of many steam craft, to which she responded with the hoarse roar of her own siren.

ADMIRAL EVANS MAY RETIRE.

If So, Plum Will Probably Fall to Rear Admiral Sigsbee.

New York, Oct. 12.—Naval officers believe that as soon as Rear Admiral Robley D. Evans, commander-in-chief of the Atlantic fleet, has piloted the sixteen battleships under his command safely on the forthcoming voyage from Atlantic waters to San Francisco, he will ask to be relieved of his command, says the New York Times.

In the regular course of events he will retire from active duty in August of next year, and his associates say it is natural for the admiral to desire a few leisure months prior to severing active connection with the service.

As to Admiral Evans' successor, there is already much speculation. There are many naval officers who believe that the plum will fall to Rear Admiral Sigsbee, who, when the fleet arrives at San Francisco, will be the commander of the second division and who will not reach retirement age until 1910.

BOY KILLED BY AUTO.

Driver Narrowly Escaped Death at the Hands of French Mob.

Paris, Oct. 12.—Charles P. Baird, of Philadelphia, son of Mr. Baird, of the Baldwin Locomotive Works, was the American who Thursday night ran down and killed a boy named Daipre at Neuilly.

Mr. Baird, who was driving a 75 horsepower, six-cylinder machine at a rapid pace, maintains that the accident was unavoidable. He had just turned out of the road to avoid a heavy wagon, when the boy suddenly stepped out from behind a van and was hit before the brakes could be applied.

After the accident Mr. Baird narrowly escaped death at the hands of an angry crowd which collected at the scene of the accident, led by two Englishmen.

Mr. Baird undoubtedly will be criminally prosecuted but the testimony taken was favorable to him.

Fell Dead at Husband's Bedside.

Berlin, Oct. 12.—The wife of the imperial adjutant, General Adolf von Buelow, died Wednesday night under very sad circumstances. The general, who has been bed-ridden for some time past, suffering from asthma, had a severe attack in the course of the night, and his attendants called the general's wife, who, seeing him apparently suffocating and unconscious, shrieked, "the general is dying, so am I." As she uttered the last words, Frau von Buelow fell dead at her husband's bedside.

Two Hurt in a Runaway.

Montgomery, Ala., Oct. 12.—Mrs. J. W. Chastain and her sister, Mrs. F. J. Dehoney, of Kansas City, were thrown from a buggy Wednesday morning and both badly hurt. Mrs. Dehoney has one leg broken so badly that it may have to be amputated, and Mrs. Chastain has a hip dislocated and other injuries. The ladies were at the Buffalo Bill show grounds when the buggy was run into by a runaway.

Saw Mill Burns.

Columbus, Ga., Oct. 12—The saw mill of H. W. Truitt at Waverly Hall, Ga., was destroyed by fire on Thursday night, together with 25,000 feet of lumber. The loss is about $3,000, with no insurance. The fire was caused, it is believed, from flying sparks.

Father of 24 Children Sued.

Philadelphia, Oct. 11.—Charles Griffith, of Morristown, aged 71 years, the father of 24 children, has been sued by Ellwood Miller for alienating the affections of the latter's wife, aged 64 years.

AN IMPORTANT DEAL

Merger of Large Southern Packing and Canning Interests.

CAPITALIZED AT $10.000.000

Several Large Trust Companies and Banks Are Behind the Promoters of the New Enterprise—E. A. McElhenny Will Be President.

New York, Oct. 12.—Announcement is made that an important deal involving the combination of [illegible] of some of the large southern packing and canning interests has been completed through George Young and associates.

The deal involves the acquisition by the McElhenny company of the packing business of E. McElhenny's Sons and the canning and packing business of the McElhenny Canning and Manufacturing company, which is said to operate one of the largest modern canneries in the United States. It is understood that such southern banking interests as the United States Trust company of Washington, and the Hibernia Bank and Trust company and the Canal Louisiana Bank and Trust company of New Orleans, are behind the promoters of the new enterprise. The capitalization of the new company will be $10,000,000.

E. A. McElhenny will be president and Frederick Kopf vice president of the new enterprise. Vice President Koft, in an interview, said:

"The company's lands and factories are situated on Avery island, in Louisiana, and it has offices in New York, Chicago, San Francisco, Portland, Montreal and London. In the production of its specialties the company will operate a fleet of fifty boats and upwards, and will employ more than one thousand hands."

"HERE SHE COMES!" WAS SIGNAL

And the Train Did Come, With Most Disastrous Results.

Warsaw, Ind., Oct. 12—Westbound Pennsylvania fast train No. 19 plowed into a crowd of people at Bonbon station late Thursday night killing Tom. Sloan, a Warsaw saloonkeeper, and seriously injuring several other persons.

At the time of the accident [illegible] people were standing on the platform awaiting an eastbound passenger train. Somebody yelled:

"Here she comes!"

The mass of humanity surged forward the track, several persons [illegible] thrown in front of the locomotive.

The injured are Frank Miller, Plymouth, hand amputated; [illegible] Rodibaugh, of Milford, hand mangled and internal injuries.

DOCTOR ALLOWED $100,000

Jury Renders Verdict Against Estate of Late Mrs. McVicker.

Chicago, Oct. 12.—A jury has rendered a verdict against the estate of the late Mrs. Harriet G. McVicker in favor of Dr. L. C. H. Zeigler for $100,000.

Mrs. McVicker was the widow of Jas. H. McVicker, the well-known theatrical manager, of this city, for many years the owner and manager of McVicker's theater. She died several years ago in California and Dr. Zeigler claimed $100,000 from the estate by virtue of a contract he said he had made with Mrs. McVicker to give her his exclusive attention during the remainder of her life. She, according to the claim advanced by Dr. Zeigler, was to give him that amount in her will.

Art Sale Realized $6,813

New York, Oct. 12.—The first auction sale of Miss Lillian Russell's household goods at the Fifth avenue art galleries realized $6,813. A dining room suite, which was described in the catalog as a copy of an old one in the Musee Cluny, Paris, brought $1,275, the highest price of the day. It was mainly a crowd of bargain seekers, souvenir hunters and second hand dealers that attended the sale and the things offered generally went for a song.

MERCER DEFEATS UNIVERSITY BOYS

First Foot-Ball Game Of Season Goes To Georgia Team

BY SCORE OF SIX TO NOTHING

Neither Side Scored Up to Thirty Minutes of Close—Mercer Reached the Goal on Blocked Kick—Averaged 178 to University 152 Pounds.

Special to The Sun.

Macon, Ga., Oct. 12.—The Florida University boys went down before the Mercer team today in the first football game of the season by a score of 6 to 0. It was an ideal football day and the game was of intense interest from start to finish, neither side scoring until, within thirty minutes of the finish, Mercer scored on a blocked kick.

The Mercer team averaged 178 pounds, whereas the University boys only averaged 152 pounds, but the playing of the latter was superior to the former, which made up for the difference in weight.

The Gainesville boys were royally entertained.

G. H. S. Football Team.

The Gainesville High School Football Team will be reorganized with the beginning of school tomorrow. There will be eight of last year's eleven on the field this season, and at least eight new faces to try for the team. They will be coached by Doctor Craigen, who is a graduate of Richmond University, and who played a half on the 'varsity for two seasons there.

Among the old players will be C. Padgett, J. Padgett, B. Douglass, G. Means, F. Bruce, P. Jones, T. McBeath, D. Bowers and J. Williams of last year's squad.

The manager is conferring with the University second team of this city and East Athletic Club of Jacksonville for games during the next few weeks.

A BRILLIANT RECEPTION.

Given to University Community by the Baptist Young People.

On Friday night the Baptist Young People of the First Baptist church tendered to the faculty and student body of the University of Florida one of the most brilliant and successful receptions ever given by the young people of the city. The large and comfortable home of the pastor, Rev. S. B. Rogers, was tendered the young people for this occasion, and they carefully attended to every detail that could possibly add to the success of the function.

The two large halls of the home, together with four large rooms, all communicating easily with each other, had been beautifully decorated with golden rod, sunflowers, roses, ferns and pot plants until the whole looked a bower of beauty. The University colors were used for drapery, and the refreshments largely carried out the color scheme. The beautiful lawn which completely surrounds the home, by means of lawn swings and settees, had been converted into a perfect park, with Japanese lanterns profusely and artistically hung everywhere.

The University young men, together with the Baraca class of the M. E. church, and many of the young men and women of the town who were so fortunate as to receive an invitation from some of the young people of the church, were all met at the door by a committee with especially prepared cards, bearing the date and carrying the colors of the University, upon which they were each requested to write their name, pin it upon their shoulder and take charge of the home—thus they were introduced each to the other. They thronged the home until 170 had been labeled, and the home and lawn were a living mass of people and fun.

Many beautiful selections were rendered upon the piano, while Miss Mae Mixson and Miss Ruth Scarratt served the most delightful fruit punch from cosy corners, where large cut-glass bowls seemed perpetual fountains of eternal youth. From these the guests were conducted to the large dining-room where, amid bowers of ferns and flowers, a few married ladies served most delicious orange sherbet and cake, in blue saucers, thus carrying out the University colors of orange and blue.

At a late hour, when the guests declared they could eat no more, nor stay any longer, leaving almost as much refreshments as they had consumed, reluctantly broke away, declaring it to have been one of the greatest times of their lives.

Rev. Mr. Rogers and his good wife, together with the young people of the church, were untiring in looking after the comfort and pleasure of those in attendance, and are to be congratulated upon the success of the occasion.

TWO GREAT SPEAKERS TO DISCUSS QUESTION

Rev. W. J. Carpenter and Bob McNamee Will Hold the Boards.

THE WET AND DRY QUESTION

In Citrus County is Now Occupying the Attention of the People, and a Close Result is Anticipated Either Way—Election on 19th.

Special to The Sun.

Hernando, Oct. 12.—There will be "something doing" in the old town of Hernando tomorrow (Sunday), when speakers for the drys and the wets will present their respective sides of the question which is now agitating the minds of the people of Florida.

Rev. W. J. Carpenter of Tampa, the gifted orator who has fought so strenuously for the cause of temperance throughout this State, will represent the drys as the leading speaker, while the wets will be defended by Hon. Robert McNamee, also of Tampa, and one of the most eloquent and impressive talkers in the State. These two powerful speakers will cross bats on the question involved, and a most interesting meeting is anticipated.

This occasion has been widely advertised, and people are expected from every section of the country, all anxious to hear the arguments of two of the most eloquent advocates of either side in Florida. The argument promises something of a rich nature, as it is said both the leading speakers are "loaded"—with data.

Dinner will be funished on the grounds to all who attend, as the ladies have been busy preparing same for several days.

The election has been called for the 19th inst., and things are warming up. The drys are holding meetings and wearing their badges, and it is announced that on election day they will hold services in the various precincts of the county.

The result is conceded to be close, although the wets are quiet in their movements.

A DESTRUCTIVE RUNAWAY.

Jerry Runkle's Auto. Frightens Team and Puts Wagon to the Bad.

There was an exciting period of a minute or two on the north side of the square Saturday morning, when a heavily-loaded four-mule team belonging to M. M. Holt of Tioga became frightened at Jerry Runkle's automobile.

It is said by those who happened to witness the incident that when Mr. Runkle's auto. got within a few feet of the team the mules "pitched and reared," after which they took a beeline in haste. It was not many yards distant that the wagon came against an obstruction, however, and was partially demolished. The harness was so strong that it was impossible for the animals to get away, and in a short while they were quieted.

The wagon was rendered useless, but another was secured, and later the team returned to Tioga with its load.

No particular blame is attached to the driver of the automobile. It was a question of the mules being afraid of the "green devil," which resulted in a broken-up wagon and great inconvenience to the driver of the rig.

The preliminary trial of this case, which is destined to become of National reputation, will begin on the 17th inst., and will likely require several days.

From Tampa Judge Carter will go next to Tallahassee, where he will take his duties as a member of the investigating committee of the Internal Improvement Fund.

MOVEMENT OF PROPERTY.

People of North Gainesville Have Confidence in Suburb's Future.

The good people of North Gainesville, who have always been among the most contented and the most prosperous in this section, are evidently certain of the future destiny of their suburb, as property continues to change hands in that section.

The latest report is that Col. I. E. Webster has purchased from Daniel Graves of Michigan two lots on one of the most important thoroughfares in North Gainesville. These lots are 70x140 feet each, and are among the most desirable in that neighborhood. There is nothing definite, but it is stated that Col. Webster will erect a neat, commodious building, and that a certain young man of North Gainesville will embark in the mercantile business.

L. S. Conradson has purchased from J. L. Connelle, through the C. F. Goodman Company, two desirable residence lots in North Gainesville, one of which contains a comfortable house. The purchaser has a home of his own, and bought these lots merely as an investment.

SEA ISLAND COTTON.

Buyers Working for 27 Cent Cotton. Receipts Increasing.

Savannah, Ga., Oct. 12.—The market for Sea Islands ruled firm, with the demand almost entirely confined to fancy, which grade maintained previous quotations. Toward the end of the week sellers in plicy appeared to choice and extra fine, resulting in fair sales at the quotations below, but these sales are not included in the week's report.

Quotations are reduced 1c for extra choice, which grade is neglected; buyers are working for 27c, and claim that at any higher figure the Egyptian Janovitch will be substituted. No improvement is noted in the quality of the receipts, and very little coming from Florida.

Crop accounts show little change, claiming further deterioration from rains early in the week. During the last part of the week, however, the weather has been clear and pleasant, which change should soon show a difference in the character of the cotton.

A Certain Cure for Croup—Used for Ten Years Without a Failure.

Mr. W. C. Bott, a Star City, Ind., hardware merchant, is enthusiastic in his praise of Chamberlain's Cough Remedy. His children have all been subject to croup and he has used this remedy for the past ten years, and though they much feared the croup, his wife and he always felt safe upon retiring when a bottle of Chamberlain's Cough Remedy was in the house. His oldest child was subject to severe attacks of croup, but this remedy never failed to effect a speedy cure. He has recommended it to friends and neighbors and all who have used it say that it is unequaled for croup and whooping cough. For sale by all druggists.

Smoked Beside Powder Keg.

Maynard, O., Oct. 12.—James Johnson and Perdue, miners, were filling their powder cans from a keg in the former's house while one of them was smoking a pipe. Sparks of the burning tobacco fell into the keg, causing an explosion which wrecked the house. Johnston was fatally injured, his daughter Effie, aged 6, was also fatally burned. Mrs. Johnston and the miner, Perdue, were also badly burned.

New York, Oct. 12.—Bishop Ingram of London, who came to this country to attend the Protestant Episcopal church convention in Richmond, Va., is in town visiting the local clergy [illegible]. He will sail for home next Thursday.

LETTER TO W. N. WILSON.

Gainesville, Florida.

Dear Sir: If a customer wants $35.50 do you give him $75?

Suppose you should hear of one of your customers doing a thing like that and not knowing it, what would you say next time he wants discount?

We'll venture half your men are doing that very thing without a suspicion.

Men who paint any other paint than Devoe are paying $75 for $35.50 or some other such figure.

10 gallons Devoe is enough for a good size house two coats; 15 or 20 isn't too much of another paint. There's $8.75 or $17.50 for 5 or 10 extra gallons; besides $2 to $4 a gallon for putting it on; that's $10 to $40. That's how half the houses, stores, factories, warehouses, shops, barns, fences, are painted: $50 for paint and $25 to $50 more for not knowing what paint to put on.

The one to put on is the paint that takes least gallons and makes least bills for paint and labor.

Yours truly,

F. W. DEVOE & CO.

P. S.: The S. J. Thomas Co. sell our paint.

MRS. C. E. FINK

HEALTH OF WOMEN

In this nineteenth century to keep up with the march of progress every power of woman is strained to its utmost, and the tax upon her physical system is far greater than ever.

In the good old-fashioned days of our grandmothers few drugs were used in medicines. They relied upon roots and herbs to cure weaknesses and disease, and their knowledge of roots and herbs was far greater than that of women today.

It was in this study of roots and herbs that Lydia E. Pinkham, of Lynn, Mass., discovered and gave to the women of the world a remedy more potent and efficacious than any combination of drugs.

Lydia E. Pinkham's Vegetable Compound

is an honest, tried and true remedy of unquestionable therapeutic value.

This medicine made from native roots and herbs contains no narcotics or other harmful drugs and today holds the record for the largest number of actual cures of female diseases of any medicine the world has ever known, and thousands of voluntary testimonials are on file in the laboratory at Lynn, Mass., which testify to its wonderful value.

Mrs. C. E. Fink, of Carnegie, Pa., writes:—Dear Mrs. Pinkham:—"I wish every suffering woman would take Lydia E. Pinkham's Vegetable Compound and write to you for advice. It has done me a world of good and what it has accomplished for me I know it will do for others."

When women are troubled with Irregularities, Displacements, Ulceration, Inflammation, Backache, Nervous Prostration, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, at Lynn, Mass. Out of her vast volume of experience she probably has the very knowledge that will help your case.

The curfew law is being advocated in several Florida towns. The Sun regrets to say that several "kids" in Gainesville are prowling the streets entirely too late at night for their own good, and if their parents will not keep them at home at night the City Council would do well to enact such a law for their benefit.

Florida is coming out strong in quality, if not in quantity, in the new State of Oklahoma. It is announced that the Navy Department has had to send an agent abroad to purchase Whitehead torpedoes, owing to the fact that the supply of torpedoes in this country was not large enough to meet the demand. As a matter of fact the department has had an agent abroad for some months trying to get hold of torpedoes, but Japan has cornered the output of the Whitehead factory for more than a year ahead, and this Government will have to be gratified with whatever it can pick up. But it is announced that the Newport station will be turning them out in a little while, and this will assure us of a supply that cannot be cornered by any foreign power.

Alachua county is to be represented at the State Fair to be held in Tampa from February 5th to 22nd by getting together an exhibit should begin at once. It must be admitted however, that it would be impossible to create any enthusiasm among our people on the subject owing to the manner in which judges awarded the first prize to counties last year, when it was conceded that Alachua was entitled to the prize as a whole. Manager of the Spring Park Stock Farms that he has washed his hands of the State Fair and will have nothing to do with an exhibit from this county. This probably settles the matter so far as Alachua county is concerned. "Too much politics" regarding prizes at the last fair is responsible for Manager Callihan's decision, and at least one of the judges who was instrumental in having the grand prize "split" will find that he did himself no good so far as getting votes in Alachua county

RIVERS AND HARBORS CONGRESS.

The National Rivers and Harbors Congress will convene in the city of Washington on Wednesday, December 4th, of the current year, and will continue its sessions on the succeeding Thursday and Friday. The congress will be the second to convene after its reorganization more than a year ago. Its first session was most encouraging in the fact that its fundamental principle of a fixed and settled policy of annual appropriations for the improvement of the rivers and harbors of the United States, without regard to section but wholly with regard to merit, commended itself to the commercial and manufacturing interests of the country and to men distinguished in public life, but there is every reason to believe that its coming session will be far more encouraging.

The attention of the country has been directed to the absolute necessity for the improvement of inland waterways and harbors in a manner so forceful and so direct that the interest cannot be abated. It was an interest dormant for years, save in particular sections of the United States, and whether it has been aroused to the plane of a demand that will not be satisfied with less than full compliance by the energy of local improvement associations, or by the admitted inability of the railways to carry the freight offerings of the country, is not the material question. The real question is in the universal concession, in all sections, that the trade and commerce of the United States cannot be adequately served without the improvement of the rivers and harbors on a systematic plan of continued work with adequate appropriations made annually.

That is the policy and embraces the aims of the congress. In its sessions and its deliberations no section of the country should be without representation. All are alike interested in its work, and to no more important subjects could the commercial, manufacturing and agricultural interests of the country be directed than to the coming session of the National Rivers and Harbors Congress and to adequate representation in its deliberations.

SECRETARY OF TRANSPORTATION

Our Washington correspondent says that there is always talk of the establishment of new departments of the Government, but is is a rather different matter to get them actually established. It was a long time and after much talk that the Department of Commerce and Labor was added to the cabinet. There has been even longer talk and much less in the way of results in the effort to establish a Department of Public Health. But an effort will be made this winter to add another officer to the cabinet in the person of a Secretary of Transportation. Whether this will be accomplished it is difficult to say, but the chances favor it. The work of the Interstate Commerce Commission has entirely outgrown the physical powers of the commission to cope with it even since the enlargement of the commission itself last winter. It may not be generally known outside of Washington, but the Interstate Commerce Commission is one of the few and the only important bureau of the Government that is independent of any department. The commission was established about fifteen years ago almost as a sop to the shippers of the country. Little was expected of it and little was accomplished after the decision of the courts that it had not the power to enforce its rulings. But with the development of the rate law, the enlargement of the commission and the increasing demand for the Government supervision of transportation, the commission has increased in importance. It has had so much to do in the line of special investigations ordered by Congress and the President that it has not been able to keep up with what is supposed to be its work of adjusting railway rates. It has had court trials, cases and hearings all over the United States and constantly increasing demands on its services.

Its failure to attend to everything at once has tended to discredit it with the general public. If the work of the commission keeps up, as there is every indication it will, there will be abundant employment for a regular organized department, and this in turn will be able to cope with the transportation problem as the commission would never be able to do.

Out West it is said that the papers recognize but three varieties of railroad situations—ominous, significant and menacing.

WOMAN'S BODY IN WELL.

Supposed that Mrs. Blount, While Despondent, Suicided.

Dublin, Ga., Oct. 12.—A searching party at the county poor farm Wednesday morning made a ghastly discovery when they found the body of Mrs. Columbus Blount floating on the surface of the water in an old well near the main building of the farm.

Mrs. Blount was a relative of Superintendent J. W. Renfroe, of the almshouse, and a few days ago she came down from Macon to spend a few days. She had been complaining of feeling unwell, and it is supposed that in a fit of despondency, she threw herself into the well. No other theory can be advanced as a cause for the act.

An inquest was held, and a verdict was rendered in accordance with the above facts.

Mrs. Blount was about 50 years of age, and was the widow of Columbus Blount, who several years ago was employed in Dublin as a marshal.

Episcopal Convention.

Richmond, Va., Oct. 12.—The two houses of the general Episcopal convention met at the usual hour Friday for a business session. A Sunday school conference was held by the Woman's Auxiliary at all Saints' church and was presided over by Geo. C. Thomas, of Philadelphia. The subject discussed was "How to meet the problem of teacher training?" A conference on work among the juniors was held at the Masonic temple.

Quinsy, Sprains and Swellings Cured.

"In November, 1901, I caught cold and had the quinsy. My throat was swollen so I could hardly breathe. I applied Chamberlain's Pain Balm and it gave me relief in a short time. In two days I was all right," says Mrs. L. Cousins, Otterburn, Mich. Chamberlain's Pain Balm is a liniment and is especially valued for sprains and swellings. For sale by all druggists.

COMFORTING WORDS

Many a Florida Household Will Find Them So.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how this great change can be brought about will prove comforting words to hundreds of Florida readers.

A. Oerting, seaman, of 419 L. street, Pensacola, Fla., tells how to do it. He says: "From my experience with Doan's Kidney Pills I can strongly recommend them to anyone in need of a good medicine for the kidneys. Kidney complaint and backache caused me suffering at intervals for years. The first or second attack I did not mind, but as time went by they grew worse and at times laid me up. I could hardly walk and it was a difficult matter to straighten up after stooping, while the kidney secretions were irregular and unnatural. Doan's Kidney Pills cured me. From personal experience I know that this remedy can be depended upon to fulfill the representations made for it."

State's Plea Is Overruled.

Asheville, N. C., Oct. 12.—In the United States court here Judge Pritchard rendered his decision sustaining the ruling of Standing Master Montgomery in refusing to allow the state's attorneys in the railway rate case hearing to investigate the books of the Southern railway prior to June 30, 1905. The court says that the exceptions to the ruling of the standing master are without merit and are therefore overruled. The appeal of the defendants was argued last Saturday by counsel and since then Judge Pritchard has had the matter under consideration.

THE REAL TEST

Of Herpicide Is In Giving It a Thorough Trial.

There is only one test by which to judge of the efficiency of any article and that is by its ability to do that which it is intended to do. Many hair vigors may look nice and smell nice, but the point is—do they eradicate Dandruff and stop falling hair?

No, they do not, but Herpicide does, because it goes to the root of the evil and kills the germ that attacks the papilla from whence the hair gets its life.

Letters from prominent people everywhere are daily proving that Newbro's Herpicide stands the "test of use."

It is a delightful dressing, clear, pure and free from oil or grease.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and $1.00.

$5,000 IN PRIZES

A Competition in Needlework Which is Free and Open to All Who Desire to Enter.

A well-known New York business house, Buchan's Soaps Corporation, have just announced the biggest prize competition in needlework ever held. They agree to give $5,000.00 for the best work with the needle. There are six departments, each with its special list of prizes—fine sewing, lace work, embroidery, knitting and crocheting, infant's outfit, and the most original and unique production of needlework.

The unique feature of this contest is that there is no obligation or requirement whatever on the part of those who desire to enter. At the end of the competition, October 15, 1908, a great sale will be held in New York City of all those pieces of work whose owners wish them sold. No article will be sold for less than the price marked upon it by its owner.

Articles not winning prizes and not marked "To be sold" will be returned to their owners at the expense of Buchan's Soaps Corporation. This makes the offer an exceptionally liberal one, for no woman can lose anything, while everyone has a chance at the liberal cash prizes.

A booklet giving full details will be sent free upon request. Every woman who can do needlework should write to Buchan's Soaps Corporation, 225 Fifth Avenue, New York City.

ALLEGED TIGER WAS RUNNING AT LARGE

Marshal Arnow Arrested Negro Alleged to be a Whiskey Seller.

SAW HIM SELL PINT OF LIQUOR

Followed the Man and a Friend to Vacant Lot, Where He Declared He Saw Money and Whiskey Exchanged—Both Men Released on Bond.

Henry Johnson, colored, was arrested Saturday night by Marshal Arnow upon a charge of selling liquor in a dry county, in violation of the law.

Marshal Arnow, who always has his eye open to the interests of the people, has been suspecting Johnson of selling whiskey for some time, and has kept a close watch on him. He was unable to capture him until Saturday night, however, when he states that he caught him deliberately selling the "booze." He followed Johnson and another negro to a vacant lot in the rear of one of the blocks adjacent to the square, and declares he saw the negro pull out some money, hand it to Johnson, when Johnson passed him over a bottle of liquor, a pint, which he took from his pocket. The two men were in the act of taking a drink out of the bottle when Marshal Arnow arrested them.

Both men gave bond for their appearance before the mayor's court Monday morning. Johnson's bond was fixed at $500, while the bond of the negro alleged to buy the "booze" was let off on an insignificant bond, he being held only as a witness for the prosecution.

Marshal Arnow is exercising every means possible that is fair to check the blind tiger practice in Gainesville, and he has the support and co-operation of the best people.

Johnson will be arraigned in the mayor's court tomorrow morning, when he will be required to tell "how it happened."

In most cases consumption results from a neglected or improperly treated cold. Foley's Honey and Tar cures the most obstinate coughs and prevents serious results. It costs you no more than the unknown preparations and you should insist upon having the genuine in the yellow package. J. W. McCollum & Co.

Arch Avriett, for many years a resident of Newberry but who is now making his home at White Springs, is in the city. Mr. Avriett praises White Springs in the highest, as well he should, as he went to that resort a very much indisposed man, suffering from rheumatism, a few months ago, and now, to use the expression, he is as active as a cat. He expects to make his home in White Springs in future, and will likely engage in the mercantile business.

Allen Hill, proprietor of the Royal Cafe, is one of the finest cooks in this section of the State, and is giving his guests a fine service. He is receiving Norfolk and Humbolt oysters daily, and is serving them in all styles, in a manner which is proving highly satisfactorily. Steaks, chops, etc., are also served at reasonable rates, with the result that the Royal Cafe is catching a lot of the best trade of the city. How to Cure a Cold.

The question of how to cure a cold without unnecessary loss of time is one in which we are all more or less interested, for the quicker a cold is gotten rid of the less the danger of pneumonia and other serious diseases. Mr. B. W. L. Hall of Waverly, Va., has used Chamberlain's Cough Remedy for years and says: "I firmly believe Chamberlain's Cough Remedy to be absolutely the best preparation on the market for colds. I have recommended it to my friends and they all agree with me." For sale by all druggists.

S.S.S. KILLS THE GERMS OF SCROFULA

Through the blood, diseases are carried from one generation to another. Parents transmit them to their children, and so it goes on down the family line for years and years unless the taint is removed from the blood. Especially is this true of Scrofula, for it is a disease that is "bred in the bone," and unless the blood is purified and every trace of the trouble removed the miserable disease will finally undermine the entire health and wreck the life of its victim. The usual symptoms of Scrofula are enlarged glands or tumors about the neck, which often burst and become discharging ulcers, weak eyes, Catarrh of the head and throat, skin diseases, etc. The trouble being so firmly intrenched in the blood often attacks the bones, resulting in White Swelling, or hip disease, while a waxy, pallid appearance of the skin, loss of strength and energy, and often lung affections, show that the disease is entirely destroying the bright red corpuscles and rich, nutritive qualities of the blood. Scrofula being a constitutional disease, one affecting the entire circulation, must be treated with a remedy that builds up and strengthens every part of the system, which has so long been denied the strength and nourishment it should have received from the blood. S. S. S. is the best of all blood purifiers and the greatest of all tonics, and is therefore the ideal remedy for Scrofula. S. S. S. searches out and destroys all germs, taints and poisons, gives strength, richness and vigor to the blood and cures Scrofula permanently. It so thoroughly removes the trouble from the blood that no signs of it are ever seen again, and posterity is started out in life with a clean, pure blood supply, which is their rightful inheritance. S. S. S. while thorough, is gentle in its action, and the healing vegetable ingredients which compose it build up every part of the system. Book on the blood and medical advice free.
